

# BHAVESH AMBADAS GANGARDE

Pune, Maharashtra, India | bhaveshgangarde@gmail.com | +91 7887930293 | [linkedin.com/in/bhavesh-gangarde-757b18292](https://www.linkedin.com/in/bhavesh-gangarde-757b18292)

## PROFESSIONAL SUMMARY

Results-driven Java Full Stack Developer and Computer Engineering graduate with hands-on experience building scalable, production-ready applications using Java, Spring Boot, REST APIs, Microservices, and React.js. Proficient in full-stack development with MySQL, Spring Data JPA, and AWS. Adept at delivering clean, efficient backend systems with strong foundations in OOP, DSA, and Agile SDLC. Seeking a challenging role to contribute to high-impact software products.

## TECHNICAL SKILLS

**Languages:** Java, JavaScript.

**Backend:** Spring Boot, Spring Data JPA, JDBC, Microservices Architecture, RESTful APIs

**Frontend:** React.js, HTML5, CSS3, Bootstrap

**Database:** MySQL (Query Optimization, Schema Design, JPA Integration)

**Cloud & Tools:** Git, GitHub, Docker, Postman, Eclipse, VS Code

**Core Concepts:** OOP, DBMS, MVC Architecture, SDLC

## INTERNSHIP EXPERIENCE

**Software Developer Intern — HefShine Softwares Pvt. Ltd.**

Jul 2025 – Feb 2026

Pune, India

- Engineered and deployed 15+ RESTful APIs using Spring Boot, integrating seamlessly with React.js frontend modules and cutting API response latency by 25%.
- Redesigned MySQL database schemas and queries with Spring Data JPA, boosting data retrieval efficiency by 30% across core modules.
- Architected modular Microservices components for backend services, increasing system scalability and reducing deployment downtime by 20%.
- Partnered with a 5-member cross-functional team via Git and GitHub for version control, accelerating sprint delivery by 15% under Agile/SDLC practices.

## PROJECTS

**EV Charging Station Management System | PaperID: AIMC2025012**

2024 – 2025

Java · Spring Boot · MySQL · HTML · CSS · Bootstrap

- Developed a backend system enabling users to locate nearby EV charging stations and reserve slots via RESTful APIs.
- Implemented endpoints for user registration, slot availability, and booking management using Spring Boot and MySQL, supporting 100+ concurrent bookings.
- Integrated an AI chatbot assistant to streamline station discovery and booking workflows, reducing user interaction steps by 40%.
- Strengthened database operations with Spring Data JPA, cutting average query response time by 35%. Published: PaperID AIMC2025012.

**Employee Management System | Full-Stack Project**

2025 – 2026

React.js · Spring Boot · Spring Data JPA · MySQL · REST APIs · Axios

- Created a full-stack CRUD application to manage employee records and organizational data across 5+ departments.
- Established RESTful APIs with Spring Boot for employee creation, update, deletion, and retrieval operations.
- Designed a responsive React.js frontend integrated with backend APIs via Axios, reducing page load latency by 20%.
- Refined database queries using Spring Data JPA, improving data management efficiency by 30%.

## EDUCATION

**B.E. – Computer Engineering | CGPA: 8.31 / 10**

Jul 2021 – Jun 2025

SKN Sinhgad Institute of Technology & Science, Lonavala

**HSC (12th Grade) | 89.67%**

Jun 2020 – Mar 2021

Residential Junior College, Ahilyanagar

**SSC (10th Grade) | 86.20%**

Jun 2018 – Mar 2019

Pandit Jawaharlal Nehru Vidyalaya, Ashti

## CERTIFICATIONS

- Java Full Stack Development Certification
- Git & GitHub – Version Control Workshop
- Employability Skills – Life Skills Program
